

WATER & SANITATION

We provide access to safe water and sanitation facilities to vulnerable communities. Our WASH program improves families' hygiene and the efficiency of services by strengthening communities' capacity to sustainably manage their resources.

4,824*
people benefited

360
sanitary solutions

302
water tap stands

486
water filters

6
water wells built

2
water supply systems built

2,205
people trained in water, hygiene & sanitation practices

*Numbers include housing & humanitarian aid projects

AGRICULTURE

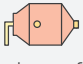

We provide small-scale farmers with agricultural training, technical assistance, and access to quality inputs. This support enables rural families to implement sustainable farming practices aimed at achieving food security and nutrition, reducing vulnerability, improving incomes, and restoring livelihoods.

1,900 
bean farmers supported with training and inputs

95 
farmers participated in high-yield fruit initiatives

459 
farmers trained at ANF's Agricultural Training Center (CEA)

30 
beekeepers supported with technical assistance and equipment

100 
families benefited with biodigesters
15 families benefited with biointensive gardens

155 
coffee and cacao farmers provided with inputs and training

EDUCATION

We aim to increase school attendance and enhance educational quality by implementing school meal programs, training teachers, building schools, and improving school-level infrastructure.

23,975
students received daily meals

231
schools and educational centers

1,600
students received school supplies

1
sports facility benefiting **107** students

2
classrooms built benefiting **596** students

10
teachers trained with new teaching methods

HOUSING

We build homes and community-level infrastructure to reduce the housing deficit in Nicaragua and provide families with an adequate shelter and what they need to improve their livelihoods.

1,790
people benefited

358
houses built

360
sanitary solutions

91
eco-stoves installed

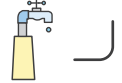

50
families benefited with reforestation initiatives

69
families supported with animal husbandry initiatives

486
water filters

302
families with access to clean water

HEALTH & NUTRITION

We promote healthy lifestyles, build awareness through health education campaigns, and ensure quality nutrition through an increased focus on prevention.

13
health centers supported with nutritional programs

73
children recovered from severe malnutrition

341
workshops on COVID-19 preventive measures

56
health centers supported with medical donations

183
diabetic patients received specialized care

5,480
children trained in health-related topics

HUMANITARIAN AID

We deliver food, first aid equipment, and basic goods as a priority to vulnerable groups such as victims of natural disasters, orphanages, elderly homes, etc.

245
people with disabilities received wheelchairs

199
feeding centers received food aid

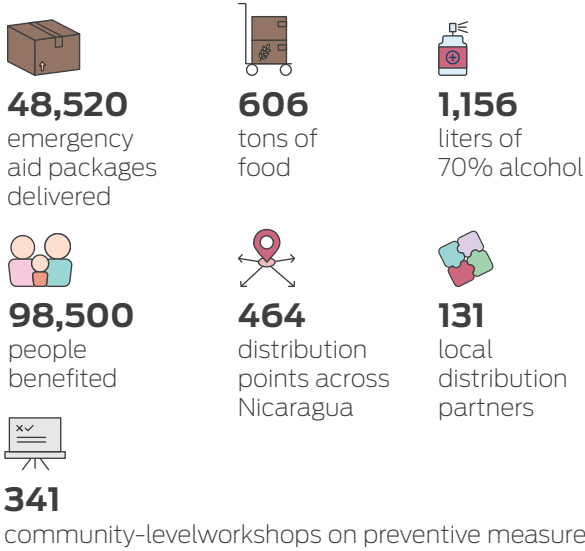

16,014
people received a daily nutritious meal

ANF is a relief and development organization dedicated to alleviating poverty in the lives of the most vulnerable communities across Nicaragua.

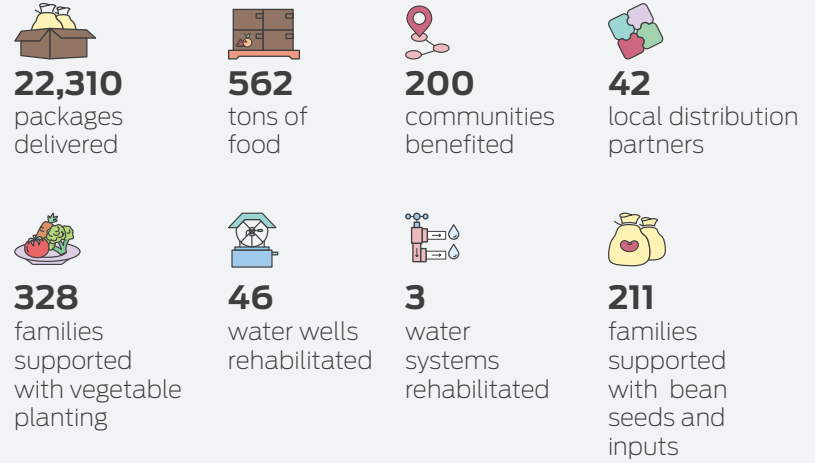

COVID-19 RELIEF FUND

As a response to the humanitarian crisis, we initiated the COVID-19 Relief Fund to provide vital emergency aid, nutritious food, and hygiene supplies to families suffering from job and income loss due to the coronavirus pandemic.

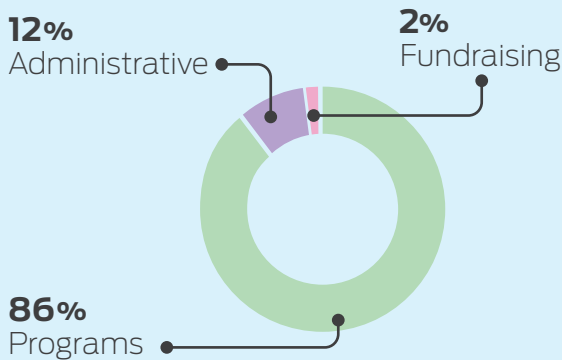

HURRICANE RELIEF FUND

With the help of our donors, supporters, and partner organizations, we provided emergency aid to disaster stricken-communities immediately after category 4 hurricanes Eta and Iota devastated Nicaragua in November 2020. Donations received have also been geared towards projects in agriculture, water, sanitation, health, housing, and other infrastructure.

Includes data through May 2021

EXPENSES BREAKDOWN 2020

\$12.8 M Program expenses
 \$4.7 M Cash allocated to programs
 \$8.1 M Distribution of donated goods

\$0.3 M Fundraising expenses
\$1.7 M Administrative expenses

\$14.8 M Total expenses
